

Aleksandar Milošević

Full Stack Developer

Kruševac, Serbia · aleksandar@ampro.rs · 064 118 08 70 · [linkedin.com/in/aleksandar095](https://www.linkedin.com/in/aleksandar095)

PROFILE

I turn your ideas into functional, fast and scalable web solutions — from custom WordPress sites and plugins to complex ERP and SaaS systems. With more than a decade of experience solving specific online problems, I bring stability and quality to every project.

Programming has been my passion since high school and my first lines of code in Pascal. Today I balance roles at established IT companies with running my own agencies – Plantaža sajtova and Poslovna rešenja. My focus is on finding technical solutions where others see obstacles.

12+ years of experience · 197+ projects completed · 150+ happy clients · 5+ diplomas & certificates

EXPERIENCE

Technical Support — Digital Dragstor 2024 – present
Employment

WordPress Developer — ADSP d.o.o. 2022 – present
Employment · Belgrade

Full Stack Developer — Agrikol Group 2019 – present
Employment · Kruševac

Founder & Lead Developer — Poslovna rešenja 2022 – present
Founder · Kruševac

Born out of the need to solve the problems businesses face every day. Here I develop custom WordPress plugins (for clients who can't find a ready-made solution on the market), carry out in-depth fixes and optimisation of existing websites, and build tailored ERP and SaaS platforms that automate operations.

Founder & Lead Developer — Plantaža sajtova 2018 – present
Founder

Where ideas take their digital shape. I focus on building all kinds of websites – from fast, modern presentation sites to complex platforms – paying attention to every detail of design, user experience and SEO.

Primary:	WordPress, Elementor, Bricks Builder, WPBakery, PHP, Laravel, Yii, MySQL, SQLite	
Frequently used:	JavaScript, jQuery, React, Vue, API integrations, Git	
Working knowledge:	React Native, PWA	

ERP & SaaS Systems

Automate your business with tailored web applications. I develop scalable ERP systems, internal portals and SaaS platforms that reduce administrative work and optimise your daily processes.

Custom WordPress Development

When off-the-shelf solutions aren't enough, I build them from scratch. I specialise in dedicated WordPress plugins, advanced custom field integrations and the specific functional requirements of your business.

Websites & E-commerce

I design and build modern, fast and SEO-optimised websites — from simple presentation sites and dedicated mini-sites for small businesses to complex multilingual platforms and online stores that generate sales.

Maintenance, Debugging & Technical Support

Leave the technical side to a professional. I carry out in-depth repairs of compromised websites, resolve code conflicts, speed up loading and provide reliable technical support so your system always runs flawlessly.
